# About Pioneers Integrated Solutions (PIS)

**About PIS: At a Glance** Pioneers PIS is a globally recognized ISO-certified training and consultancy company. Since

2012, we have empowered over 20,000 professionals across Asia, North America, Europe, and Africa with the skills to enhance performance, increase productivity, and drive business success.

## Our Vision

Pioneers Integrated Solutions' vision is to become the largest and best provider of training for students, recent graduates, engineers, and professionals in all fields in Egypt and worldwide.

**Our Mission** To deliver high-quality inspections, value-added consultancy, and comprehensive training programs that enhance knowledge and expertise across all industries.

**Our Core Values** Our client-centric approach is built on a foundation of:

Mastery & Excellence in everything we do.

Innovation & Reliability in our services and solutions.

Integrity & Commitment to our clients' success.

## Why Choose Pioneers PIS?

We are the strategic partner for organizations and professionals seeking to excel. Our unique strengths include:

**Global Expertise, Local Presence:** Operating from key industry hubs including Cairo, Riyadh, Abu Dhabi, and Hollywood.

**Tailored Solutions:** Offering both public courses and customized in-house training designed for the Oil, Gas, Energy, and Petrochemicals sectors and beyond.

**Elite Trainers:** Our team includes Harvard-certified professionals, PhDs, and industry-leading experts dedicated to delivering relevant, high-impact content.

### Proven Track Record:

**1,000+** Courses Completed

**15,000+** Delegates Trained

**15+** Countries Served

## Who We Serve

**Organizations:** We provide qualifying facilities for compliance (e.g., National Food Safety Authority) and deliver tailored training to meet specific strategic goals.

**Engineers & Professionals:** We offer specialized consultancy and inspection services to drive industry excellence.

**Students & Graduates:** We build foundational competency through courses in Total Quality Management (TQM), Lean Six Sigma, and other critical fields.

Let us help you achieve your goals. Partner with Pioneers PIS to build a more skilled, efficient, and successful future.

# PIS's Clients

**PIS Training: Where Strategy Meets Execution:** For over a decade, we've empowered more than 20,000 professionals and organizations to not just adapt to the future, but to define it. We move beyond theory to deliver the actionable skills and strategic insights that drive real-world results.

## Your Partner in Transformation:

- **Future-Proof Curriculum:** Don't follow trends; master them. Our courses are built on the cutting edge of industry needs.
- **Provable Expertise:** Our certifications are more than a credential—they are a recognized signal of mastery and commitment.
- **Tailored Empowerment:** We transform your team's potential into a measurable competitive advantage.

Ready to build a workforce that leads? Let's architect your success like ours clients

# PIS Learning Solutions

## Flexible Delivery for Modern Challenges

We understand that effective learning happens in different ways. That's why we offer our expert-led courses across multiple platforms, ensuring a powerful and convenient experience that fits your purpose, schedule, and organizational needs.

### 1. Onsite / In-House Training

**The Solution:** We bring the training directly to your team, at your location.

**The Benefit:** Perfect for training entire teams or departments on company-specific procedures, fostering teamwork, and building a unified culture of excellence. Maximizes relevance and direct application to your unique environment.

### 2. Public Training Events

**The Solution:** Engage in our open-enrollment courses held at premium hotel or resort facilities.

**The Benefit:** Offers a dedicated learning environment away from daily distractions. Provides invaluable networking opportunities with peers from other leading organizations, fostering the exchange of ideas and best practices.

### 3. Virtual / Online Training

**The Solution:** High-quality, interactive learning delivered live online by our expert facilitators.

**The Benefit:** A flexible and cost-effective solution for geographically dispersed teams. Experience the engagement of a real classroom with the convenience of logging in from anywhere, without compromising on the quality of interaction or dedication of our trainers.

**No matter how you learn best, we deliver the same standard of excellence, practical content, and expert guidance.**

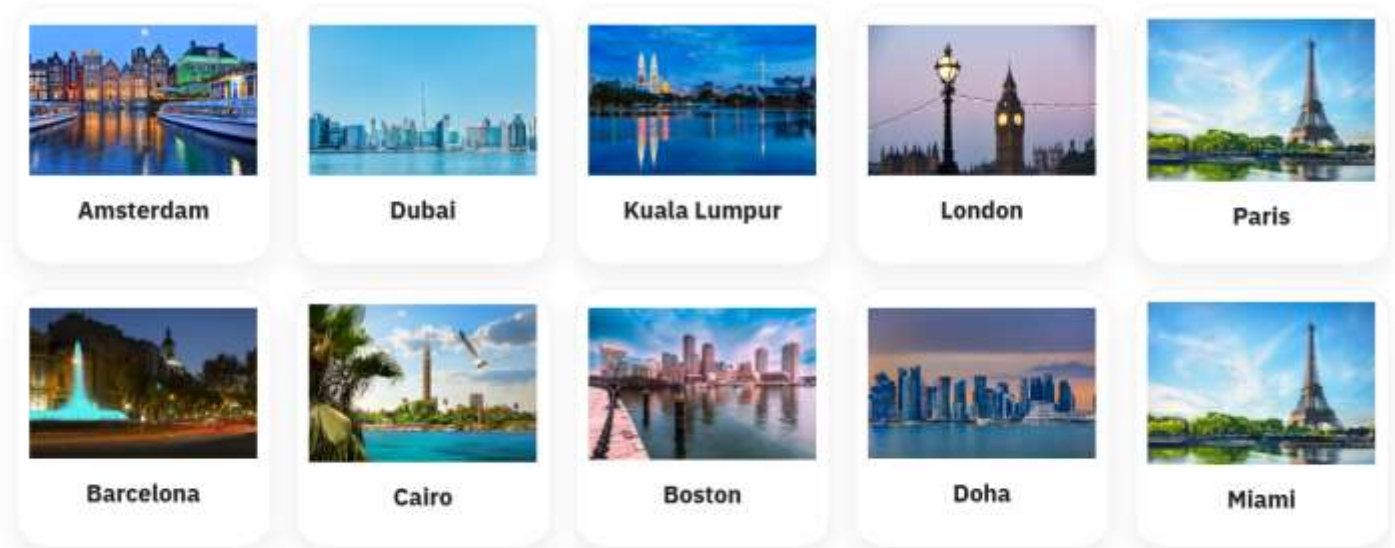

# PIS's Training Venues

## Learn in the World's Most Inspiring Cities

With a presence in over 30 global hubs, we bring world-class training to your doorstep. Whether you're looking to immerse your team in a local session or send delegates to an international flagship event, our global network ensures a premier learning experience everywhere we operate.

# PIS's Training Methodology

**The PIS 360° Learning Impact Model:** At PIS Learning Solutions, we believe effective training is a strategic process, not a single event. Our methodology is a holistic cycle designed to ensure knowledge is not just absorbed, but applied, retained, and measured for a clear return on your investment.

**Our 360° Learning Impact Model is built on four distinct phases:**

## **Phase 1: ANALYZE & ALIGN** *(Before the Training)*

We begin by understanding your unique world. This phase ensures the training is perfectly tailored to your specific challenges and business objectives.

- **Needs Analysis:** We conduct consultations to identify specific skills gaps, performance issues, and strategic goals.
- **Customization:** Course content, case studies, and examples are tailored to your industry, company culture, and even your specific projects.
- **Pre-Assessments:** Where applicable, we benchmark participants' current knowledge to measure growth accurately.

**Outcome:** A training program that is a strategic solution, not just a generic course.

## **Phase 2: ENGAGE & EXPERIENCE** *(During the Training)*

Learning is most effective when it's active and engaging. We move beyond lecture-based teaching to create an immersive learning environment.

- **Expert-Led Delivery:** Our trainers are seasoned industry professionals who bring real-world experience and practical insights, not just theoretical knowledge.
- **Interactive Learning:** We utilize a dynamic mix of:
  - **Case Studies:** Real-world scenarios relevant to your sector.
  - **Practical Workshops:** Hands-on exercises to apply concepts immediately.
  - **Group Discussions & Role-Plays:** Foster collaboration and problem-solving.
  - **Technology-Enhanced Learning:** Use of digital tools and platforms to increase engagement.
- **Safe Learning Environment:** We encourage open dialogue, questions, and the freedom to practice new skills without fear of failure.

**Outcome:** An engaging and practical learning experience that builds confidence and competence.

## **Phase 3: APPLY & SUSTAIN** *(After the Training)*

The true value of training is revealed back on the job. We provide tools and support to bridge the gap between the classroom and the workplace.

- **Action Planning:** Participants create personalized plans to implement their new skills immediately.
- **Job Aids & Resources:** Access to digital toolkits, templates, and reference materials for ongoing support.
- **Reinforcement Modules:** Optional short follow-up sessions (e.g., virtual check-ins) to refresh key concepts and address challenges.
- **Manager Support:** We provide guides for managers to coach and reinforce the learning within their teams.

**Outcome:** Successful transfer of learning, leading to improved individual and organizational performance.

#### **Phase 4: MEASURE & IMPROVE (Evaluating Impact)**

We prove our value by measuring the results. This phase closes the loop, providing data-driven insights into the training's effectiveness and ROI.

- **Kirkpatrick Model Evaluation:**
  - **Level 1: Reaction:** Measure participant satisfaction and immediate feedback.
  - **Level 2: Learning:** Assess the increase in knowledge and skills through post-training assessments.
  - **Level 3: Behavior:** Evaluate the application of skills on the job through surveys and manager feedback (3-6 months post-training).
  - **Level 4: Results:** Work with you to measure the business impact (e.g., increased productivity, reduced errors, higher sales, improved safety records).
- **Continuous Improvement:** We use this data to continuously refine and improve our course content and delivery.

**Outcome:** Tangible proof of value and a partnership focused on continuous improvement and your success.

# PIS Learning Solutions:

## 2026 Strategic Training Framework Aligned with Saudi Vision 2030

**Our Vision for 2026:** To be the **undisputed strategic training partner** for organizations contributing to the Saudi Vision 2030. We are committed to building a **future-ready Saudi national workforce** by delivering specialized training that develops the core competencies required to achieve the Vision's goals of a vibrant society, a thriving economy, and an ambitious nation.

**Introduction:** This framework is our blueprint for empowering the Kingdom's human capital. Each of our **28 sectors** is meticulously aligned with the key pillars and goals of **Vision 2030**. We don't just offer courses; we deliver targeted training interventions that directly support the diversification, modernization, and professionalization of the Saudi economy, fostering a culture of excellence, innovation, and global competitiveness.

### Strategic Alignment: How Our Sectors Power Vision 2030

We have mapped our training sectors to the three core themes of Vision 2030:

**1. A Vibrant Society (Building a Productive and Capable Nation)** Our programs under this pillar focus on social development, public service efficiency, and cultural enrichment.

- **HSE (Health, Safety, Security & Environment):** Supports a thriving and well-maintained society.
- **HMH (Hospital Management & Healthcare):** Directly enables the "Healthier Lives" initiative to improve healthcare services.
- **TCH (Tourism & Hospitality):** Empowers the workforce for the "Vibrant Society" and "Entertainment" giga projects (e.g., NEOM, Red Sea Project).
- **MLG (Municipality Services & Urban Development):** Develops skills for modernizing public administration and building sustainable cities.
- **LND (Learning & Development):** Builds the capacity of Saudi trainers and educators, creating a self-sustaining ecosystem of learning.

**2. A Thriving Economy (Unlocking Capabilities & Economic Diversification)** This is our core focus, with sectors designed to fuel the non-oil economy, privatize industries, and attract investment.

- **PWL (Procurement, Logistics & SCM):** Builds the backbone of a logistics hub, a key goal for becoming a global trade connector.
- **BKI (Banking & Investment):** Develops the financial sector to support private sector growth and FDI.
- **OIL (Oil & Gas): Critical:** Provides advanced training to **saudize** the energy sector and maximize value from the Kingdom's core resources.
- **ITN (Information Technology):** Fuels the "Digital Transformation" and "Innovation" goals, building skills in AI, cybersecurity, and cloud computing.
- **CCE/MAE/EEE/MEM (Engineering Sectors):** Provides the technical expertise for giga-projects and industrial diversification (e.g., manufacturing, renewables).
- **QAP (Quality & Productivity):** Instills a culture of efficiency and excellence in Saudi businesses, enhancing global competitiveness.

**3. An Ambitious Nation (Effective Governance & Strategic Leadership)** Our programs here focus on strengthening public sector effectiveness, regulatory frameworks, and national leadership.

- **MLD (Management & Leadership):** Develops the next generation of Saudi leaders in both public and private sectors.
- **HRM (Human Resources):** Modernizes HR practices to attract, retain, and develop top national talent.
- **LTC (Legal & Contract Management):** Strengthens the legal and contractual frameworks essential for international business and protecting national interests.
- **TRM (Tax & Revenue Management):** Supports the development of a robust non-oil revenue system (e.g., Zakat, Tax, VAT).
- **POC (Customs and Port):** Enhances the efficiency of trade gateways, facilitating the flow of goods and supporting economic growth.

### **Our Commitment to the Kingdom:**

- **Localized Content:** Our courses will incorporate Saudi-specific case studies, regulations, and cultural contexts.
- **Saudization Support:** We are committed to knowledge transfer, developing Saudi trainers, and partnering with local institutions to build internal capabilities.
- **Strategic Partnerships:** We seek to collaborate with government entities (e.g., HRSD, TVTC), semi-government organizations, and private sector leaders on national upskilling initiatives.

**Is your organization aligned with Vision 2030?** Your success is the Kingdom's success. Partner with PIS to ensure your team possesses the **critical skills** to lead, innovate, and excel in the new Saudi economy.

### **Let us help you:**

- **Saudize your workforce** with certified competency.
- **Win contracts** in giga-projects with a highly skilled team.
- **Improve productivity and quality** to international standards.
- **Navigate the evolving regulatory and economic landscape.**

# "Cutting Edge Programs" sector (CEG)

**Focus:** Strategic Innovation; Pioneering the "next" big thing through incubation, complex program management, and future-proofing initiatives.

**Audience:** C-Suite, Business Unit Leaders, R&D Teams. They are the sponsors and beneficiaries of the innovation pipeline, Investors, Market Analysts, Strategic Partners, Top Talent. They are influenced by the CEG's work and reputation.

# "Cutting Edge Programs" sector (CEG)

A **Cutting-Edge Programs Sector (CEG)** is a specialized unit dedicated to pioneering and managing high-impact, innovative initiatives that secure a long-term competitive advantage or address futuristic challenges for its parent organization. Its focus is on the **"next"** rather than the "now."

## 1. Primary Focus of a Cutting-Edge Programs Sector

The CEG's mission is multi-faceted, centered on innovation, strategic growth, and future-proofing. Its core areas of focus include:

### A. Strategic Innovation & Incubation

- **Identifying Disruption:** Proactively scanning the horizon for emerging technologies (AI, Quantum Computing, Synthetic Biology), new business models, and market shifts that could disrupt or create opportunities.
- **Blue-Sky Research:** Exploring radical, high-risk, high-reward ideas without the immediate pressure of ROI that constrains traditional business units.
- **Incubating New Ventures:** Acting as an internal startup studio—providing funding, talent, and resources to validate, prototype, and pilot new concepts until they are viable for spin-out or integration.

### B. Managing High-Stakes, Complex Programs

- **Cross-Functional Leadership:** Orchestrating initiatives that span multiple traditional departments (R&D, IT, Marketing, Operations) that no single unit can manage alone.
- **De-risking Innovation:** Using advanced project management methodologies (Agile, Hybrid) to manage the inherent uncertainty of groundbreaking work, ensuring progress and learnings even if full success isn't achieved.
- **Ecosystem Building:** forging partnerships with startups, academic institutions, research labs, and venture capital firms to access external innovation.

### C. Future-Proofing the Organization

- **Developing New Capabilities:** Building the technical and cultural muscles the organization will need to thrive in the future (e.g., building expertise in blockchain, ethical AI frameworks, or sustainable design).
- **Strategic Foresight:** Conducting scenario planning and war-gaming to prepare the organization for potential future states.
- **Cultural Catalyst:** Injecting a culture of experimentation, calculated risk-taking, and agility into the broader, often more conservative, organization.

### D. Solving "Moonshot" Challenges

- Tackling grand challenges that are critical to the organization's mission but are too complex or long-term for standard divisions. For a tech company, this might be achieving Artificial General Intelligence (AGI); for an energy company, it might be achieving net-zero fusion power.

## 2. Target Audience (Who the CEG Serves)

The CEG's work impacts both internal and external stakeholders. Its primary "customers" or audiences are:

### A. Internal Audience

#### 1. C-Suite & Board of Directors (The Sponsors):

- **Their Need:** To ensure the company's long-term survival, growth, and market leadership. They need a return on strategic investment and a hedge against disruption.
- **CEG's Value to Them:** Provides a structured pipeline of future growth options, strategic insights on trends, and demonstrable progress on large-scale, legacy-defining initiatives.

#### 2. Heads of Business Units (The Partners):

- **Their Need:** To find new sources of revenue, improve operational efficiency, and defend their existing business lines from new competitors.
- **CEG's Value to Them:** Acts as an innovation service provider. The CEG hands them validated, de-risked new products, services, or technologies that they can scale and integrate into their P&L.

#### 3. Internal Technical & Research Teams:

- **Their Need:** Resources and mandate to work on ambitious, technically challenging problems without bureaucratic constraints.
- **CEG's Value to Them:** Provides a dedicated haven for advanced R&D, access to special tools/budgets, and a clear path to seeing their work have a major company-wide impact.

### B. External Audience

#### 1. The Market & Investors:

- **Their Need:** Signals that the company is a forward-thinking leader, not a stagnant incumbent. This drives valuation and market confidence.
- **CEG's Value to Them:** The CEG's existence and publicized projects are a powerful signal of innovation and long-term vision, making the company more attractive to investors and top talent.

#### 2. Strategic Partners & Ecosystems:

- **Their Need:** To find leading organizations to collaborate with on defining the future of the industry.
- **CEG's Value to Them:** Serves as a dedicated "front door" for startups, academics, and other companies seeking to collaborate on cutting-edge work, rather than getting lost in a large corporation's bureaucracy.

#### 3. Potential Recruits (Top Talent):

- **Their Need:** To work on meaningful, state-of-the-art projects that push the boundaries of what's possible.
- **CEG's Value to Them:** Acts as a powerful talent magnet. The promise of working in the CEG is a key tool for recruiting world-class engineers, scientists, and strategists who would otherwise join startups or competitors.

## Cutting Edge Programs Sector (CEG)

Course Code	Course Name	Implementation Date	Venue	Price (USD)
PIS_CEG_26_001	Leading through Agility, Resilience and Emotional Intelligence	4 - 15 Jan	Amsterdam	\$11,900
